

# COMPSAC 2019

DATA DRIVEN INTELLIGENCE  
FOR A SMARTER WORLD

Hosted by Marquette University, Milwaukee, Wisconsin, USA  
July 15-19 [www.compsac.org](http://www.compsac.org)

## ITIP Symposium: IT in Practice

COMPSAC 2019 symposium on IT in Practice (ITiP), cosponsored by IT Professional, covers a broad range of emerging innovative IT applications and serves the interests and needs of IT practitioners and researchers as well as application developers and IT managers from business, industry and government. The symposium focuses on diverse elements necessary to successfully architect, design, engineer, configure and field a range of IT applications in several domains and application-oriented research outcomes. It is an interactive forum for sharing and gaining valuable insights and experiences and for active engagement among IT professionals and researchers around the globe. **For full information, please visit <https://ieeecompsac.computer.org/2019/itip/>**

We solicit submissions on a range of topics related to the symposium theme, including but not limited to:

- |   |  |
|---|--|
| Applications of AI and machine learning                     | Emerging trends in IT  |
| Autonomous vehicles   | Enterprise IT/IS management  |
| Big data analytics and management                           | Green computing and sustainability   |
| Blockchain and crypto currencies                            | Human factors in IT  |
| Cognitive computing   | Information assurance and security   |
| Crowd sourcing and collaborative computing                  | Innovative IT applications and architectures                               |
| Cyber-physical systems                                      | IT audit and controls  |
| Cyber risks and security                                    | IT in business, healthcare, industry, and other sectors                    |
| Data and social media mining                                | IT standards and regulations   |
| Design, deployment and management of large scale IT systems | Network of things  |
|   | Smart systems – smart cities, smart grid, smart buildings, smart logistics |

### IMPORTANT DATES

January 21, 2019: Abstracts and full papers due  
April 7, 2019: Paper notifications  
May 17, 2019: Camera ready submissions and advance author registration due

### ORGANIZING COMMITTEE

**ITiP Symposium Chairs**  
San Murugesan, BRITE Professional Services, Australia  
Fulvio Corno, Politecnico di Torino, Italy

### ITiP Symposium PC Co-Chairs

G.R. Gangadharan, National Institute of Technology Tiruchirappalli, India  
Piyush Saxena, Direct Supply, USA

### ITiP General Chair

Irena Bojanova, National Institute of Standards and Technology (NIST), USA
